- DIR
- Direct purchase

Approved Networks provides unsurpassed service and support on our complete line of optical networking products, including:

Lifetime Warranty - Approved transceivers come with an industry leading lifetime warranty.

Data Center Certified - Approved's entire product line has been certified compliant within the data center environment.

Custom Programmed - Approved networking products are programmed in-house and can be custom coded with client name, part number and serial number.

Warranty Safe - Approved products will not void your OEM warranty, and they present zero service-level risk. Federal law protects you and your rights.

In-system tested - All products are tested within their intended system in an Environmental Test Lab ensuring 100% guaranteed compatibility.

Same Day Shipping - Approved maintains an extensive inventory ensuring same day shipping on 98% of orders placed before 2:00PST.

Evaluation Program - Approved allows you to verify the quality and reliability of our products by offering an industry leading 30-day evaluation program.

Network Emulation - Approved networking products are tested using the Shenick Test and Measurement System which provides comprehensive performance analysis on modules during emulated application flows.

Approved's transceivers support almost all OEM brands, including:

Aerohive | Alcatel | Arista | Avaya | Brocade | Cisco | D Link | DELL | Enterasys | Extreme
Gigamon | HP | Huawei | IBM | Intel | Juniper | Linksys | Meraki | Netgear | Nokia | Palo Alto
