Description

Approved Networks' **100G-CFP-LR4-10KM-A** CFP transceivers are designed for use in 103.125 Gbps 100GE links up to 10km over single mode G.652 fiber pair. The 802.3ba-2010 100GBase-LR4 standard CFP module supports four wavelengths centered around 1300nm, each operating at 25.78125 Gbps line rates. The product is ideal for the interconnection of Ethernet Switches, IP Routers or optical cross connects optical interfaces. Digital Optical Monitoring interfaces are provided via the CFP MSA standards compliant MDIO interface.
